Grove Eyes Community Council

Supervisor Scheidle Calls For Meeting

By JACK POLLARD,
News Editor

Supervisor Harry Scheidle has called for interested citizens to meet with him on Friday, Feb. 28 at noon at the Brunswick Bowlero Lanes to discuss formation of a Community Council for Lemon Grove.

In making the request, Scheidle said that he would like to address members of the Lemon Grove Men's Club in order to make plans known to the community leaders.

The Lemon Grove Men's club has been the central focal point for community leaders in the past. The club has heard various leaders talk on problems from sex education, crime, to communism and the betterment of the community.

Indications from leaders in most service clubs have been received by this newspaper that they are willing and interested in a program of this type for Lemon Grove.

Scheidle said, "Lemon Grove needs some special attention that will allow the community to grow and develop with a sense of organization.

"Traditionally, this community has allowed itself to be the victim of poor planning and poor zoning. It is time that the community take steps to better planning."

In making the announcement Scheidle said that he would like to see a cross section of people in the community become involved in a council that could act on behalf of Lemon Grove.

The supervisor indicated that one of the top priorities of the council should be that of developing a general plan for Lemon Grove.

He said that this type plan would take a great deal of leg work to develop and that results would not be seen for at least five to six years.

NON-POLITICAL GROUP NEEDED IN LEMON GROVE

Frank Shughrue, jr., president of the Lemon Grove Chamber of Commerce said that he will attend the meeting. Shughrue indicated that a program of this type should be an aid to the community.

Jim Dorman, president of the Old Time Days Association said, "We need a non-political body to serve in the interests of Lemon Grove."

Al Woods, manager of the Lemon Grove branch of Bank of America, and former president of the Old Time Days Assoc., and Chamber of Commerce president said that the community should back this type of program.

Woods said, "We would like to see a good backbone of persons living in Lemon Grove become involved in a community council. We need some sort of local representation."

Lemon Grove had a Coordinating Council that was in effect during 1959 and 1960.

OPEN HOUSE: Michele Davis (left) and Claudia Sabo (right) both of Lemon Grove, turned out for the open house at the San Diego County Sheriff's office sub-station in Lemon Grove Friday afternoon. Grape Boycott Forces Unionism

The California table grape boycott has reached the silly stage.

Last week, in St. Paul, the city purchasing department ordered the St. Paul Zoo to stop buying grapes for its animals because of the boycott. The sufferers are the zoo's pandas, ostriches, minah birds, toucans, parrots and gorillas. Only the gorilla had it beat. He is on loan to the zoo in Omaha where the town's purchasing department apparently has one less jerk than in St. Paul.

The St. Paul Zoo boycott provides a good example of how the innocent can be injured when a rejected union throws around its weight.

A few weeks ago the National Association of Food Chains condemned the table grape boycott and spelled out the unreasonableness of using chain outlets as a "shuttlecock in a badminton game between grape growers and a group of farm workers."

Despite the plea from National Association of Food Chains President Clarence Adamy in mid-December, the Eastern Division of A&P Food Stores, one of the largest chains in the nation, agreed last week to support the boycott.

Adamy pointed out that demands on the food chains have often been accompanied real or implied threats of violence, business disruptions or strikes.

He said demands had come through a variety of churches, civil rights, labor and political groups. The demands revolve around the long-standing allegations by the United Farm Workers Organizing Committee that farm workers are given

EXTRADITION WAIVED

Deputy Sheriffs Capture Key Gang

San Diego County Deputy Sheriffs arrested a trio from Kentucky on Jan. 28 in Santee

The arrests resulted in police officials making one of the largest hauls in key rings, and related materials used to breaking all types of locks.

Arrested were Donald Shumate, (29), Joseph Shumate (27), and Deborah Shumate (17) all of Kentucky. The three were turned over to Kentucky police officials Monday.

Deputies C. Moyer, V. Kelley and R. Rickly, all working out of the Sheriff's sub-station in El Cajon made the arrests after they spotted a vehicle that the trio came to Calif. in.

The three were listed on the top ten most wanted criminals by Kentucky law enforcement agencies. They were also wanted by the FBI for unlawful flight to avoid prosecution.

Kentucky authorities in Louisville put out the bulletin after the three had fled that state while awaiting sentencing for unlawful acts.

Included in the haul were more than 1,500 keys of various sizes and makes; tear gas guns and pellets; and other equipment used in professional lock picking.

DRUG VIOLATIONS GROW

● In other activities in this area, deputies have had their hands full of marijuana violations by juveniles in the Lemon Grove-Spring Valley area.

On Feb. 5, in Spring Valley five juveniles ranging from 15-17-years-of-age were arrested at 10707 Jamacha blvd. in trailer park space 145.

The arrests came after neighbors complained to law officials that juveniles were racing a car in and out of the park trailer park driveway.

The five, three boys and two girls, were all taken to juvenile hall.

Bail Refused S.V. Man In Vendor's Murder

SAN DIEGO (CNA) — A bloody fingerprint on a cigar box found in the home of "Blind Bob" Anderson, major evidence in his murder, has also become the reason for holding a Spring Valley man, suspected of the murder, in jail without bail.

The accused man, Rex Spross, 29, 1372 Walbollen st., pleaded not guilty at his arraignment and trial has been set for April 24.

Superior Court Judge Robert Staniforth refused Friday to set bail in the case as requested by appointed defense attorney Louis Katz.

Robert Eugene Anderson, 40, 297 Landis, Chula Vista, was found dead on Dec. 13, and testimony Friday was that death came some time between 3 p.m. and 7 p.m. from massive head injuries.

The judge, in refusing bail, said he was making his finding on the grounds that the evidence before him would support a jury finding of murder by an appellate court. He said he felt he should not comment further on the evidence.

The print, of the left index finger, the patterned part of the first joint, was found on a cigar box in blood.

BLOOD TYPES

Chula Vista Dectective Billy Gene Cox testified that investigation showed that the victim's blood was type A and that of the defendant was type O. He said that type A blood was found on the cigar box, but he did not testify to the type of blood found on the print.

Cox also testified that type A blood was found on clothes taken from Spross's home after he was arrested near that location.

The slain man and his mother ran a popular news stand on Third avenue in Chula Vista for 22 years. Spross became acquainted with them when he was a route salesman for a tobacco company.

The defendant's attorney said the sum and substance of the case rested on the fingerprint. He said he did not believe that sufficient for the court to refuse to set bail. He asked that it be set at $10,000.

Spross, he said, has many debts, is buying his own dirt hauling truck and makes a $1,000 a week when he works.

Prosecutor said the elements of a capital case (one in which the death penalty could be evoked) are present. He said the murder could have occurred during another crime such as robbery or burglary, which makes it first degree under the first degree murder doctrine.

He said it could have also been premeditated and deliberate.

He said the head of the blind man was crushed with such severity that it could not be told what was used as a weapon.

Always and Everywhere

Let no one imagine that it is a strained and unnatural thing for one to pray. The contrary is much closer to the fact. It is far more unnatural for one not to pray. Prayer is one of the most natural of human instincts. Prayer is man's response to the divine will.

State Vote Beat Humphrey Van Says

WASHINGTON — The election of President Nixon was decided in just two California counties — San Diego and Orange — Rep. Lionel Van Deerlin, D-San Diego, told the House Judiciary Committee.

"Without those two adjacent counties, Mr. Nixon would have fallen short of the majority of 270 electoral college votes required for election," Van Deerlin said. The Judiciary Committee is considering a variety of proposals for either abolishing the electoral college or making it more responsive to the will of the voting public.

The San Diego Congressman pointed out that while Mr. Nixon carried San Diego and Orange counties by 259,907 votes, his statewide California margin was only 223,346.

"If you take away the San Diego and Orange returns, Mr. Nixon would have lost California — and the state's 40 electoral votes," Van Deerlin continued. "And although he would have still led in the national popular vote, he would not have had enough electoral votes to claim the Presidency."

Mr. Nixon actually received 301 electoral votes, followed by Hubert Humphrey with 191 and George Wallace with 46. If California had gone for Humphrey, the new President's total would have been 261, nine short of the required majority, and, according to Van Deerlin, "We would have been faced with a real constitutional crisis."

Van Deerlin told the committee he cited the California case as "a specific example of the threat inherent in the electoral college system, with its built-in inequities and its all-or-nothing method of allocating each state's voting strength."

Van Deerlin is sponsoring a proposed constitutional amendment to do away with the electoral college and require a run-off election when no candidate wins at least 40 percent of the popular vote.

Concert Association Membership Drive Continues Until Saturday

The Grossmont Community Concert Association is currently holding its annual membership campaign this week, at the La Mesa Chamber of Commerce, according to chairman William Mathews.

Oldest of the San Diego area Community Concert Associations, Grossmont has been presenting outstanding concerts for 22 years on a reciprocal basis with several hundred Community Concert Associations in the U. S.

Locally, members of any of these Associations share reciprocity with San Diego, Coronado and Grossmont.

Because of this reciprocal arrangement, membership in a Community Concert Association is considered the very best investment available for the same artists presented at the Metropolitan, Carnegie Hall, La Scala and other such concert halls throughout the world.

Admission to all concerts is by membership card only. No single concert tickets are available. Adult season membership for Grossmont members is $7; students, $3.50.

The final concert of the current season will be offered as a bonus to new members — Natania Davrath, the superb Israeli soprano, on March 12 of this year. All concerts are held at the Grossmont High School Auditorium.

Two of the four concerts have been announced for next season. They are the Vienna Academy Chorus and Rosalyn Tureck. Mme Tureck has been described by the London Times as "the greatest scholar and interpreter of Bach today" on the keyboard.

The internationally famous Vienna Academy Chorus is a mixed vocal ensemble graduates of the Vienna Academy of Music. The other two concerts will be announced before the season begins in the fall.

Campaign headquarters will be at the La Mesa Chamber of Commerce, telephone 461-0240.

Patrick H. Ela Granted Psychology Fellowship

Patrick Hobson Ela, an art and psychology major at Occidental College, is one of eight students just awarded Occidental international fellowships for six months of independent research or creative work abroad.

Ela, the son of Mr. and Mrs. B. W. Ela, Jr., of 1610 Elroy dr., Lemon Grove, will spend a half-year in Germany studying woodcuts, trade school and academy graphics, and printing techniques.

The object of the annual fellowships, open to all junior men and women, is to immerse students in the culture of a foreign country, an experience they couldn't duplicate on their own.

A travel grant and stipend is awarded each student on the basis of originality and merit of his project, according to Dr. Erich Frey, 1969 chairman of the college's committee on international studies.

Besides Germany, other winners this year will travel in Africa, Russia, Mexico, the Bahamas, and even as far off as tiny Gore, an isolated south island of sheepherders in New Zealand.

Among students who have travelled by jet and canoe over 200,000 miles in search of undergraduate research papers and creative projects with a punch since the Occidental program began in 1960, is student sculptor Geoffrey Hollander.

Just returned from Italy where his work was cast in foundries outside Rome, Hollander's show of bronze figures opened in Herrick Hall on the Los Angeles campus last week.

Ela, a graduate of Mt. Miguel High School, serves as junior class president at Occidental and is a member of the on-campus language club.

He is considering a career in advertising or teaching following graduation.

Dogs Might Be Man's Friend But . . .

Just because a dog is someone else's best friend does not mean he will necessarily be your best friend.

In recognition of this poignant fact, the National Safety Council has just issued a series of guidelines on dealing with strange dogs. In descending order of friendliness:

If he ignores you, ignore him.

If he growls, stand perfectly still. Do not look him in the eye.

If he continues to growl, try to sooth it (with words alone; do not move your hands) so you can slowly walk by and beyond him.

If he jumps you, bring your arms quickly to your face — each hand holding the opposide elbow.

If you're thrown down, roll onto your stomach and cover your head and neck with your arms.

Mrs. Betty Ruiz, Mt. Miguel Chapter president, states that American Field Service is anxious for any interested persons to join them in this experience of working together to promote understanding.

There are two American Field Service programs. One program annually brings over 3,000 students from 61 countries to the United States.

Another, the Americans Abroad Program, sends over 1,400 American teens yearly to 44 countries overseas.

Many organizations as well as individuals contribute to the American Field Service Scholarship Programs.

Schools have waived non-resident tuition, and other fees.

Host families welcome students without pay. Thousands of volunteers contribute time and energy.

County Adopts Voluntary Vehicle Safety Check Program

San Diego County's voluntary vehicle safety check program opened Feb. 1, and will continue through Dec. 31, 1969.

President Patrick J. Doogan of the San Diego County Safety Council and Jim McFarland, president of the motor car dealers association, made the announcement.

Both men are urging all county motorists to join the "check your car—checks accident campaign" by safety checking their cars.

Doogan said that the county-wide safety check should be a challenge to all drivers to check their conduct behind the wheel. Both safe cars and safe drivers are needed to check accidents, Doogan and McFarland said.

Check lanes will be set up at various locations throughout the year by law enforcement agencies to ascertain that drivers are operating vehicles in safe condition through inspection processes.

Vehicles with all items in safe condition will receive a safety check windshield sticker.

Each year more than 70,000 vehicles in the county-wide safety-check are found to need immediate attention to one or ore of the items affecting safe driving condition, McFarland said.

"The items safety-checked are brakes, front and rear lights, (turn signals, stop lights), steering, tires, exhaust system, glass, windshield wipers (and washers) rear view mirrors, horn, and Seatbelts." McFarland pointed out.

Doogan also stated that "Discovering unsafe vehicles now will permit owners to have dangerous conditions corrected properly allowing motorist to complete inspection procedures conducted by the California Highway Patrol thus keeping their car from becoming a factor in traffic accidents."

The safety-check program is part of a free county-wide check held in cooperation with the safety council, motor car dealers, independent garages, tire dealers and service stations.

Kiwanis Club Takes On International Flavor

International flavor was added to the breakfast meeting of the Spring Valley Kiwanis Club last Wednesday morning by Spring Valley Junior High students.

The five students, members of Richard Palmore's social science class, explained their "Friendship Packets" which are being sent to many parts of the world.

It is their hope that this small effort will aid them in understanding the people of other countries in a more intimate way.

Mary Rios explained, "We wanted to learn more about foreign countries than just reading it in a textbook, so we decided that if we sent information to other countries telling about ourselves, our homes and our community, we might get the same information back from them."

Karen Hallmark and the two girls of her committee told about their packet that is being sent to Vienna, Austria, followed by the boys' presentation of their packet which has already been received in Germany.

The postage for the packets continued to rise as the children included such items as pictures of themselves, and their families, accounts of local history, descriptions of school, food, sports, recreation and other activities.

The Kiwanis voted to play a key part in the project by contributing $30 toward the postage of the packets. Some of the countries receiving the packets are England, Switzerland, France, Romania and Russia.

The information will be sent to the ambassadors of the foreign countries selected by the 16 groups in the classroom, and then forwarded to nearby schools.

Richard Guttman and his partner, Herbert Boekamp, are not concerned about their reply being in a foreign language because their packet went to Germany, and Richard already has a good knowledge of the German language.

Prior to the program, Laurie Bulthius won one of two drawings, a ticket to the Chinese New Year's celebration to be held in Balboa Park Feb. 22.

Following the program, the group was presented a plaque of appreciation by the Kiwanis' program chairman, Roy Williams.

Zoo Opens New Complex

A new complex of eight separate exhibits housing rare or endangered species of pheasants was officially opened today at the San Diego Zoo.

Assisting in the dedication ceremony were Captain Jean Delacour, noted ornithologist and an honorary life member of the Zoological Society, and K. C. Lint, curator of birds.

Capt. Delacour maintains one of the world's largest private collections of wildfowl at his estate at Cleres, France, and has written several books on ornithology.

The eight new pheasant enclosures, built at a cost of $25,000, are located in the zoo's recently completed Alpine area on Horn and Hoof Mesa.

Of simulated rock and wire-mesh construction, the exhibits are designed and landscaped to approximate the birds' natural habitants as closely as possible. Zoo officials hope the improved aviaries will facilitate breeding.

Included in the rare pheasants now on exhibit in the enclosures are pairs of Brown Eared Pheasants, Blue Eared Pheasants, Ocellated Turkeys, Koklass Hill Pheasants, Mikado Pheasants, Palawan Peacock Pheasants, Hume's Bartailed Pheasants, and three Celebes Maleos, or Moundbuilders.

Along with the pheasants, a variety of parakeets will be exhibited.

Top Ranked Helix Plays Host To Santana Friday In Hoop Clash

By TOM WARREN
Helix Sports Writer

With the league season slowly setting, the Helix hoop squad will meet up with Santana tomorrow night in the Highlander gym.

The first, and only, time the two clubs met, earlier in the season, the Scots won it handily, 80-54.

In that skirmish, the Highlanders were led in the scoring column by forward Dave Unroe, who had one of his better (if not the best) games of the season, scoring 26 points and playing an excellent defensive game.

Santana is a team which relies leavely on a balanced effort, something the Scots must be wary of.

The last time Helix faced a team such as this (Monte Vista) they came close to losing their second league game of the season. Their first came against the same Monarch team.

A reason for this could be that with 6-10 center Bill Walton, the Highlanders are able to shut off the team which relies heavily on one man.

Such was the case when they played Mt. Miguel, and the same holds true for Grossmont and others.

CONCERN EXPRESSED

Another reason the Helix quintet has for concern is that the Sultans were able to defeat Madison, 58-53, in presea son play, and the Highlanders just squeaked by the Warhawks, 60-57, in the first of two games the Scots played against them during the preseason.

Last Friday the Highlanders overcame a five minute stall, and its instigator, El Capitan, 81-41. The Vaqueros, trying desperately to find a cure for "Green Fever," resorted to stall tactics for the solution, but instead of building up an immunity to the dreaded disease, which has plagued the entire Grossmont League this year, they caught it themselves.

With only about five minutes left in the first quarter, the Iakeside bunch has held the Scots to only one point, but there was one slight catch, they hadn't scored any.

From then on the Highlanders started displaying the offense that has made them number two in that department in the county, and has left them with a 9-1 league record, as they rallied to a 13-2 first quarter advantage.

RUNAWAY

After that it was a runaway for the Scots, as they went on to clench ae least a tie for third place, even if they were lose their remaining three games, a highly unlikely prospect.

Leading the Scot scorers in the game was Bill Walton, with 24. That sum was good enough to vault the talented junior to fifth place in the league scoring race.

Backing him up were another junior, Randy Madsen, with 12, and senior guard Bruce Menser with ten.

Forward Dave Unroe remained eighth in league scoring, just ahead of Menser (ninth), despite the fact that he only mustered up six points in the contest.

Tuesday the Scots travel to Granite Hills to take on the lowly Eagles, who have yet to win a league game. The last time the two clubs met, the Eagles took a 96-55 beating.

Monarchs Suffer Disaster In CIF Playoff Berth Drive

By SCOTT McGAUGH

The Monte Vista High School basketball squad's drive for a CIF Play-off berth was given a disastorous blow last week as the Monarchs were belted by Helix, 67-54, and dunked by Grossmont, 76-63.

Trying to snap a three-game losing skid, the Monarchs will hit the road to El Cajon this Friday night for an 8 p.m. skirmish with the Braves.

The hustling Monarch defense was almost enough to beat the Helix Highlanders as Monte Vista was in the game until the closing moments.

The first half saw erratic play by both squads as the lead changed hands several times with Helix leading, 17-9, at the end of the first period.

The Monarchs came back to cut the deficit to 24-23 but trailed at the half, 32-27.

GREEN MACHINE ROLLS

The Green Machine of Helix then got into gear in the opening minutes of the second half when Helix scored nine straight points to the Monarchs' two to lead, 41-29.

From there it was downhill for the top-ranked Highlanders.

The Monarchs then traveled to "The Barn" to play the Grossmont Foothillers but were upended, 76-63.

Grossmont's archaic gym, called the "Barn" by the players, lived up to its age as the lights went out when Monarch Jim Bristol made a lay-up in pre-game practice.

When light was restored, the Monarchs looked around and saw a Grossmont full-court press which caused 30 Monarchs turnovers which led to several Foothillers baskets.

The Monarchs grabbed the lead at 4-2 and led at the end of the first quarter, 17-12, with Jim Bristol got off to a great start for Monte Vista.

Bristol played one of his best games as a Monarch as he tossed in 22 points. Bill Belander followed with 18.

MONARCH RESULTS:

George Youngs Signs Up For Indoor Games

George Young, who was voted the Athlete of the Meet at the Champions track classic here last spring, is the first man to sign for the San Diego Indoor Games, set Saturday night, Feb. 22, at the Sports Arena.

For the first time, the meet will be combined with the C.I.F. San Diego Section Indoor Championships. There will be a full prep show preceding the open events.

Young ran an amazing 8:22 to set an American two-mile record. In his win the veteran Arizonan ran down many of the world's foremost distance men, including Ron Clarke of Australia.

George, running in his third Olympic Games at Mexico City, won a bronze medal in the 3000-meter steeplechase. Ironically, that defeat was his only loss of a memorable year.

oYung lost to high-altitude stars Amos Biowott and Benjamin Kogo of Kenya, a loss he ascribes strictly to the Kenyan's high altitude advantage.

Bobby Sox Call General Meeting

Wrestlers Gun For 2nd Title

By SCOTT McGAUGH
Monte Vista Sports Writer

The Monte Vista High School wrestling squad will be gunning for its second Grossmont League Championship in three years this Friday as they host the El Cajon Braves in an 8 p.m. match.

Monte Vista is 6-0 in league play this year and has all but clinched the championship as the Braves of El Cajon are well down in the standings.

The Monarchs took their sixth straight win last Tuesday by all but running the Grossmont Foothillers out of the gym, 28-16.

Larry Millard, wrestling at 144, collected his fifth pin in six matches.

After Dennis Weikel picked off a win for the Monarchs at 161, Grossmont took the final three matches to keep the score from becoming embarrassing.

Greg Sullivan and John Tancil, both of Monte Vista didn't wrestle against Grossmont. They were declared ineligible by Coach Bill Clauder because of a "personality conflict".

Monte Vista will have a week off after the El Cajon match before the favored Monarchs go to the CIF Play-offs starting Feb. 21.

MONARCH RESULTS:

102—Wilson (G) dec. Stelzig, 15-2. 110—Tancil (MV) pinned Browning, 3:00. 119—Kida (MV) dec. Dennis, 15-2. 126—Nutting (MV) dec. Engle, 6-3. 133—Lyer (MV) dec. Lind, 6-1. 139—Fleury (MV) dec. El Cajon Trips Matadors, 57-53

Mt. Miguel High School suffered a stunning 57-53 defeat last Friday at the hands of the El Cajon High Braves.

The game, a heartstopper from the opening tip off to the last "swisher", saw El Cajon grab the lead in the second quarter and hold on until the third period.

The loss put Mt. Miguel in third place in the Grossmont League with a 7-3 loop mark. The Matadors had been tied with Grossmont High (8-2) for the second place lsot.

Mt. Miguel visited Santana High Tuesday, and will entertain Granite Hills tomorrow night. Miguel posted wins over both earlier in the year. Granite Hills boasts the high scoring combo of Tim Doerr and Donnie Schuldies, but has yet to win a league contest. As of Friday, it was ten straight for the Eagles.

Next week, the heavy action starts again, as the Matadors will take on Grossmont Tuesday in the Miguel gym and will travel to Helix in the season finale Friday night.

State Appraisers Start Checking Property Values To Aid Schools

State appraisers are checking San Diego County property values to derive a key figure in the computation of state school aid that amounts statewide to nearly one and a half million dollars a day.

Richard Nevins, member of the State Board of Equalization, said the survey just begun in this county is one of 19 such county surveys being conducted this year to bring up to date the finds based on surveys made three years ago.

Owners of properties appraised will be notified of the market value found by the survey and may inspect the appraisals.

The program, Nevins explained, helps to measure the taxable resources of a school district and determine that local schools get their proper share of state school funds. Other things being equal, the state furnishes more aid to school districts with limited taxable resources than to wealthy districts.

The average assessment level, expressed as a percentage of market value for all taxable propery in the county, is announced annually as a preliminary figure on the third Monday in July. It is subject to change on or before Aug. 23.

This county average is compared to the statewide average. If the county's assessed values conform substantially, no adjustment is needed. If the assessed values are far out of line, they will be changed to make the county's average conform with the average for the state.

Nevins said, "Over $500 million in state funds, part of a larger amount of state education aid, will be shared by the state's 1,174 school districts under the equalization formula which employs these county and statewide averages."

This is but one of a half-dozen uses to which the assessment level percentages are put. Another important use is to determine the extent to which state loans to school districts for building construction are to be repaid.

The countywide average may also be used by a property taxpayer to help him decide whether his assessment is fair when compared to assessments of all other property in the county.

Trustees Eye Teacher Proposal For $100,000 In Salary Raises

Lemon Grove Elementary School District teachers asked the board of trustees for $100,000 in raises Monday night and urged the board to call an override election pay the cost.

Lou Robinson, chairman of the District Teachers negotiating Council said the increases would bring teachers' salaries here "more in line with other districts."

The board decided to study the proposal before considering it again at the next board meeting.

Robinson asked that top salaries be raised to $8,684 for those on the 10th step of the lowest beginner; classification and $13,078 for those on the 15th step of the highest classification. In percentages, raises would range from four to eight based on a schedule he presented to the board.

Robinson told the board that teachers would work for successfully passing an override election if the override is related to the total budget. He also urged the board to consider unifying the district with the Grossmont Union High School District.

The override tax rate presently is $1.99. $100,000 added to the budget for salaries would call for an increase of 30c in override taxes to $2.29.

Byron Netzley(district superintendent, told the board that the district faced the need for a bond election for construction of new classrooms as soon as we can ascertain what impact heavy, new residential construction would have on the school population. Part of the total school tax (beyond the proposed $2.29 override) is collected for retiring bond obligations.

Spokesmen for the teachers' group asked that an override for salaries be called immediately but Netzley pointed out that three months time is required to set up election machinery.

"It is difficult to pass a school election at the tag end of the school year," he said. "Most school organizations have disbanded for the summer and it would be difficult to get enough people and enough enthusiasm to assure an election's success."

The bond issue needs for additional classrooms as well as the teachers' salary demands will get close scrutiny at the Feb. 24 board meeting, trustees indicated.

Marijuana Charge Jails Local Girl

SAN DIEGO (CNA) — A Brookside girl will serve 60 days in the county jail to consider the evils of carrying marijuana cigarettes in her brassiere.

She is Sandra Kay Westfall, 3254 Fairway dr., who will be 19 on Feb. 18.

She was arrested early in the morning in El Cajon on Jan. 10 and a search by a police matron revealed the marijuana in two plastic bags.

The probation officer quoted Miss Westfall as saying, "I nearly always held people's dope in my brassiere. The police never look in a girl's brassiere."

Hardison's Telespanish

by James Hardison

Is there anything that the words "vivia, decia, habia" have in common? What do they mean and how are they used?

These words have a lot in common. First, all three are verbs and they end in the letters "ia." This verb ending denotes that a past tense is being used. For example, "vivia" may be translated "use to live" and "decia" is translated "use to say." All are actions that took place in the past.

An interesting characteristic of these verbs is reflected in their use, interchangeable, with the first and third pronouns. "Yo decia" (I use to say) and "ella decia" have the same verb form. The only change is in the first person, "yo" and third person "ella."

The question for "Que decia usted?" may be translated idiomatically as "What were you saying?" A negative response might be "Yo no decia nada." (I was saying anything.) You may have noted that the pronoun "usted" may also be used with the verb form "decia."

"Habia" means "use to have." It is also idiomatically translated to mean "there were." Thus we may say "Habia mucha gente." for "There were many people."

The phrases listed below reflect some of the varied uses of the verbs "vivia, decia," in particular. See if you can learn to say them. If you need help, dial 276-2762 on your telephone and practice the wohds and phrases with the record.

IMPORTANT PHRASES

Say "Que me decia?" (keh meh deh-SEE-ah) for "What were you saying to me?"

Say "Yo no decia nada." (yoh noh deh-SEE-ah NAH-thah) for "I did not say anything."

USEFUL PHRASES

Say "Donde vivia usted?" (DOHN-d e h vee-VEE ah oo-STEHD) for "Where did you live?"

Say "Yo vivia en Los Angeles." (yoh vee-VEE-ah ehn lohs AHN-heh-lehs) for "I use to live in Los Angeles."

OTHER PRASES

Say "El decia muchas co sas." (ehl deh-SEE-ah MOO-chahs KOH-sahs) for "He use to say many things."

Say "Que intersante." keh een-teh-reh-SAHN-teh) for "How interesting."

unfair treatment by some of Central California's table grape growers.

Adamy says it is morally improper to coerce any person or business that is not a party to a dispute to become an active participant in it.

Californians for the Right to Work stepped into the dispute with a position paper charging that the boycott is a weapon to force grape growers to join a union they won't join voluntarily.

Five hard-hitting points were made by the Right to Work group through its president, E. Russell White.

He said:

1.) 88% of California's farm workers now live in the county of their labors. 73% have lived in that county for the past five years. So the issue is not concern over migrant workers.

2.) California farm workers' $1.69 an hour is the highest farm pay in the nation. In Delano pickers earn $2 an hour with experienced pickers getting more than $2.50 an hour. So the issue is not wages.

3.) Cesar Chavez's United Farm Workers Organizing Committee (AFL-CIO) claims that the grape pickers are on strike. But 5,000 pickers from Delano area have regularly been picking grapes in San Jouquin fields since the "strike" was called. So there is no strike of workers.

4.) California farm workers are covered by more protective laws than any other state — nine. Protection includes workmen's compensation, disability insurance, farm labor camp regulations, farm labor contractors regulations, wage collection laws, child labor law, transportation regulations, wage payment law, and minimum wages for women and minors. So the issue is not protective legislation.

5.) Cesar Chavez charges his United Farm Workers Organizing Committee have spent approximately $10 million and three years of effort to unionize California farm workers. To date, less than two per cent have joined. This suggests unionism is being forced upon them.

Californians For Right to Work claims the issue is compulsory unionism and that the "national boycott is being pushed by Chavez and the other paid professional union organizers as a weapon to force growers to join the union they would not join voluntarily."

Meanwhile the editor of the California Farm Bureau President Allan Grant says the concensus of opinion among observors at the National Capitol is that "the boycott will not only be continued, but the AFL-CIO will devote more money and manpower to the effort this year."

Even if Congress sets up some ground rules governing the farm labor problems — rules that will recognize the perishability of farm crops — the effort cannot be in time for this season's harvest.
